

ABSTRACT OF THE DISCLOSURE

'TWINUS DE LA BEDDAS' invention offers several new art disclosures. This invention is made of 2 standard sized baby beds that connects to a large lamp (pole) by metal hinges, which also attaches to the beds mainframe poles, allowing moveable swing in/out motion of the beds. The lamp has many artistic design features, such as impressed picture drawings, a whind-up musical carousel, a eluminating inner light bulb located inside the lamp pole, a safety snap panel, roller wheels, and rubber stoppers to slow movement. The 3 new bed artistic styles are named: 'Fruit of Passion', 'Dove of Peace', and 'Independence Baby'. Other forms of this invention include LCD/DVD Computers with Monitors and Shield Accessories, Overlapping Adjustable Bed Rails, Inner Rail Prongs, several drawers that consist of clothing, toys, etc., and a double cubical Dry Ice Refrigerator. Children whom occupy these beds will experience enjoyment, enhancement, comfort, and protection.
